Career highlights ★★★★★

★★★★★

Shipped Blazor micro-frontends to production for a US healthcare platform

✓ **Verified — Homecare Homebase, via Kopius, 2023–present**

Built and shipped clinician-workflow features (vitals, demographics, visit review) end to end, working daily in English with a US-based team, on an Azure DevOps CI/CD pipeline.

Led a distributed team of 8 across 3 countries

✓ **Verified — Prosegur, 2015–2022**

Built the core logistics platform for cash-in-transit operations, plus an ATM key management system for banks and armored trucks.

Led a 6-developer team on a live payments product

✓ **Verified — Conekta, 2022–2023**

Ran the team with Scrum and Jira on a production payments platform.
