

Mauricio Acuña

Senior .NET Full-Stack Engineer | Applied AI (LLM apps and agents)

Buenos Aires, Argentina · Remote (GMT-3) · mauri0686@gmail.com · linkedin.com/in/mauricio-acuña · github.com/mauri0686 · mauri0686.github.io

PROFESSIONAL SUMMARY

Senior full-stack engineer with 15+ years building .NET applications, from .NET Framework through .NET 9, with C#, Blazor, Angular and React on SQL Server and Azure. For the past three years I have worked fully remote for a US healthcare company. Earlier I led teams of 6 to 8 developers across Argentina, Spain and Peru. More recently I have been building AI features as well: LLM apps with OpenAI and LangChain, retrieval-augmented generation over vector databases, and small autonomous agents. I work in English every day and I like owning features from idea to production.

TECHNICAL SKILLS

Languages & frameworks: C#, .NET 9 / .NET Core, ASP.NET Core, TypeScript, JavaScript, Python

Frontend: Blazor WebAssembly, Angular, React, Telerik UI, Piral micro-frontends, SignalR

Cloud & DevOps: Azure, Azure DevOps, CI/CD, LaunchDarkly, Google Cloud, Docker

Data: SQL Server, Oracle, MySQL, MongoDB, EF Core, Dapper, Qdrant

APIs & architecture: REST, GraphQL (HotChocolate, StrawberryShake), Microservices, DDD

Testing: xUnit, bUnit, Moq, FluentAssertions, SonarQube

AI: OpenAI, LangChain, RAG and embeddings, AI agents, prompt engineering, OpenAI Vision

EXPERIENCE

Senior Software Engineer - Homecare Homebase (US healthcare), via Kopius

2023 - Present · Remote (US)

- Build Blazor WebAssembly micro-frontends (Piral piletts) in HCHB's Care+ / Patient Center for clinician workflows: vitals, demographics, visit review, physical assessment and clinical documentation.
- Integrate typed GraphQL data services (HotChocolate, StrawberryShake) and ship feature-flagged rollouts with LaunchDarkly.
- Test components and services with xUnit, bUnit, Moq and FluentAssertions in an Azure DevOps CI/CD pipeline, working in English with a US based team.

Project Leader - Payments, Conekta

2022 - 2023

- Led a team of 6 developers on a payments product, running the team with Scrum and Jira.

IT Lead / Senior .NET Full-Stack Engineer - Prosegur

2015 - 2022

- Led a distributed team of 8 developers across Argentina, Spain and Peru.
- Built the core logistics platform for cash in transit operations, plus an ATM key management system for banks and armored trucks.
- Stack: .NET 5, C#, Angular 8 to 10, SQL Server, Oracle, Docker, Google Cloud, Azure DevOps.

Earlier .NET roles - Zoologic, New Digital Way, AXA Assistance, ATS, Grupo Abax

2007 - 2015

- Full-stack .NET work across e-commerce (musimundo.com), insurance, IVR systems and QA automation, on .NET Framework MVC and SQL Server.
-

LANGUAGES

Spanish: Native. English: Upper-Intermediate (B2). 3 years working in English with US teams.

EDUCATION & TRAINING

Universidad Abierta Interamericana - Educación IT: SQL Server, Oracle, .NET Design Patterns, Kanban. PluralSight: Angular, Domain-Driven Design. PM Value: Project Administration.

PROJECTS
