PROFILE / 01

Senior Software Engineer | 13 Years in .NET/C# | Shipping LLM, RAG and Agent Systems

I have more than 13 years of experience in software development. Since 2023, I have worked remotely with a US healthcare team and used English every day. Before that, I led distributed teams working on payment and cash-logistics systems. My work covers APIs, data, frontend development, testing and releases. I also build developer tools with Python, LLMs, RAG and MCP.

NOW / US HEALTHCARE

SELECTED EXPERIENCE

Senior Software Engineer

Homecare Homebase

Apr 2023 – Present · Contract via Kopius · Remote · English-speaking US team

Clinician-facing features for the HCHB Care+ and Patient Center products.

- ↳ Develop Blazor WebAssembly micro-frontends for vitals, demographics, visit review, physical assessment and clinical documentation (3+ years with Blazor).
- ↳ Integrate typed GraphQL clients and APIs with HotChocolate, StrawberryShake, Dapper and SQL Server.
- ↳ Use LaunchDarkly and Azure DevOps CI/CD for gradual releases. Test with xUnit, bUnit, Moq and FluentAssertions.
- ↳ Work daily in English with US product, design, engineering and QA teams, from refinement through production support.

02

LEADERSHIP EXPERIENCE

Project Leader

Conekta · Payments · Jul 2022 – Jul 2023

Led 6 developers on a payments platform, acting as delivery lead, Scrum master and analyst. Defined and refined user stories with the product owners, turning business needs into technical scope. Ran planning, dependencies, blockers and releases with Scrum and Jira.

IT Lead / Senior .NET Engineer

Prosegur · Logistics · 2015 – 2022

Built integrations for SOL, the core cash-in-transit platform that handled routes, services and the scheduling and closing of resources and services, including the bridge to the legacy billing system. Later moved to the software factory and spent ~3 years building Prosegur Keys from scratch with .NET and Angular, a single web application that unified the web-service APIs of several vault manufacturers and issued the code an operator needs to open a truck safe or a client safe. Promoted to IT lead of a distributed team of 8 people across Argentina, Spain and Peru.

Earlier experience

Previous roles in QA automation, e-commerce, insurance, IVR and business systems.

- 2014 – 2015

Zoologic
.NET Developer
Built an internal QA portal that ran automated test batches against the core billing product.
- 2013 – 2014

New Digital Way
.NET Developer
Implemented features for Musimundo.com with ASP.NET MVC and SQL Server.
- 2011 – 2013

AXA Assistance
.NET Developer
Developed enhancements for a core insurance-assistance platform.
- 2009 – 2011

Advance Technology Solutions
Junior .NET Developer
Built IVR solutions and database integrations with .NET Framework and SQL Server.
- 2007 – 2009

Grupo Abax
Junior .NET Developer
Developed business applications with .NET Framework 2.0 and SQL Server.

INDUSTRY EXPERIENCE

Healthcare / Payments / Secure logistics / E-commerce / Insurance / IVR

Core stack

BACKEND / ARCH
C# · .NET 8 · .NET Framework · ASP.NET Core/MVC · Web API · REST · GraphQL · DDD · SOLID

FRONTEND
Blazor WebAssembly (3+ yrs) · Angular (3 yrs) · TypeScript · JavaScript · Telerik UI · Piral · HTML/CSS · React (personal projects)

DATA
SQL Server · Oracle · MySQL · Informix · MongoDB · Dapper

CLOUD / DELIVERY
Azure · Azure DevOps · CI/CD · Docker · Google Cloud · Git · LaunchDarkly · Jira

QUALITY
xUnit · bUnit · Moq · FluentAssertions · Code review · SonarQube · Debugging

AI / TOOLING
Python · LLM APIs (multi-model) · RAG · AI agents · MCP

EDUCATION
Systems Engineering coursework
Universidad Abierta Interamericana · 2008 – 2011

LANGUAGES
Spanish: Native
English: Professional working proficiency (daily use with US teams since 2023)

SELECTED RECOMMENDATIONS

“Consistent and reliable, with a clear commitment to moving things forward. He takes ownership and keeps pushing to make sure things get done.”
Sergio Rofi · Tech Lead

“I’ve had the pleasure of working with Mauricio and have consistently been impressed by his professionalism, dependability, and commitment to delivering high-quality work. His collaborative approach stands out throughout the development lifecycle.”
Ginger Hill · Product Leader
